PROFESSIONAL SUMMARY

Software Engineer experienced in building and deploying full-stack applications across web and mobile. Skilled in TypeScript, React, Next.js, Node.js, Express.js, and MongoDB/PostgreSQL, with experience designing responsive interfaces, integrating APIs, implementing backend logic, and taking products from idea to deployment.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Go

Frontend: React, Next.js, Angular, Tailwind CSS

Backend: Node.js, Express.js, Golang, REST APIs, System Design

Databases: MongoDB, PostgreSQL

Mobile: React Native, Expo, React

Web: Angular, Next.js, React, Tailwind CSS

Tools: Git, Github

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Freelance), Remote

Jul 2021 - 2024

- Engineered user-focused web applications using Angular and Next.js, resulting in a 30% increase in user engagement based on analytics data.
- Implemented SEO strategies that improved search engine rankings by an average of 40% for client websites.
- Developed backend systems with Node.js and Express.js, including authentication, MongoDB data handling, and API integrations, supporting up to 500 concurrent users.

Mobile Developer, Campus Buddy

Jan 2025 - Present

- Collaborated with a team of 3 developers to build and deploy a mobile application, contributing to features across the development lifecycle.
- Worked with teammates on implementation, code reviews, and debugging, helping reduce reported bugs by 20%.
- Built mobile UI/UX improvements and integrated REST APIs, contributing to a 15% increase in user engagement and supporting 10,000+ active users.

Front-End Developer, NodePair

Apr 2024 - 2025

- Developed responsive, high-performance user interfaces using Next.js and Tailwind CSS, contributing to a 25% increase in website speed.
- Built and maintained a library of 30+ reusable components, reducing development time by 10% while maintaining the company's design system.
- Enhanced cross-browser compatibility and optimized load performance, contributing to a 89% compatibility score and 8% lower bounce rate.

SELECTED PROJECTS

DropEnv

Next.js | Web Crypto | Cloud Run | AES-256-GCM

- Built a zero-account secret-sharing tool that encrypts .env data client-side before storing an encrypted payload.
- Implemented AES-256-GCM encryption and burn-on-read behavior so shared secrets can only be accessed once.

Melo

React Native | Expo | TypeScript | Translation APIs

- Built a one-to-one multilingual chat app that translates messages into each user's preferred language while preserving the original text.
- Implemented language-aware message handling and translation API integration for real-time cross-language communication.

Sage

React Native | Gemini | TypeScript

- Built an AI-powered communication coach that analyzes conversations and generates strategic response suggestions.
- Integrated Gemini for structured scenario analysis, response generation, and contextual recommendations.

Education

BSc. Statistics

Ahmadu Bello University

In Progress

Diploma in Computer Science

Petroleum Training Institute

Graduated
